

PharmaSUG 2019 - Paper DV-332
Visualize Overall Survival and Progression Free Survival at the Same Time!

Kriss Harris, SAS Specialists Limited

ABSTRACT

Usually we produce Kaplan-Meier plots to show the Overall Survival (OS) and/or the Progression-Free Survival (PFS) profile. It is rare that we see the OS and the PFS on the same graph; the endpoints are usually in two different files.

This paper will show you how to produce an animated visualization that you can use to visualize the OS and PFS together which can help you to understand the treatment efficacy better..
