If your company is the owner, put your company's name above and have the company's representative sign in the corresponding section in the second page. For a paper with multiple authors, it is the responsibility of the first author to collect the signature(s) of co-author(s) and submit the copyright grant form. Only the representative of the first author's employer needs to sign on the second page and it is assumed that the agreement is reached by the employer(s) of the co-author(s). In this case, there is no copyright owner declared by the author (or the first author of multiple-author paper), marking N/A in Copyright Owner row, i.e. the copyright belongs to PharmaSUG China, the publisher.

The undersigned, being all of the authors of the above captioned work, hereby grant(s) a nonexclusive right under the copyright in the Work to the Publisher to publish the Work in the PharmaSUG China 2014 Conference Proceedings and to take the Work, as published, and reproduce it in sales and marketing literature produced by the Publisher, effective if and when the Work is accepted for publication by the Publisher. A copyright notice in the name of the Copyright Owner (the "Owner") is to accompany every reproduction of the Work if Publisher's Publication or reprint does not include an overall copyright notice protecting the Work. This grant is subject to the reservation of the Owner's rights to (1) copyright ownership, including use or publication of all or any part of the contents of the Work in the course of their business or in any publication authored or published by or for PharmaSUG China or its designee; (2) reproduction and/or distribution of the Work but not the Publication as a whole as published by Publisher, and (3) approval of any changes in the Work by the Publisher. No proprietary rights other than this grant under copyright are included, and no transfer of any rights in the Work may be made by Publisher to a third party without the prior written approval of the Owner.
